BOX NET tag36h11 ids 20-25 cube 50 mm tag 40 mm (nominal)
1. Cut along the SOLID lines (outline incl. grey tabs). Dashed = fold.
2. Fold every dashed line and every tab AWAY from you (printed side stays outside).
3. Fill the cube so it can't dent (foam / wood block, or packed card), glue tabs inside.
4. Measure tags + cube edges -> measurements.yaml. Orientation is built in; no choices.
